

Job Title:

Psychiatrist: Dwight D. Eisenhower Army Medical Center, Fort Gordon, GA
(04 to 05 billet)

Job Description:

Serves as a Board Certified psychiatrist at a teaching medical center, which is responsible for tertiary care to patients throughout Southeast Regional Medical Command. Provides outpatient and inpatient psychiatry services, to include the assessment, diagnosis, and treatment of active duty, dependents, and retired beneficiaries.

1. Evaluates and renders treatment to outpatient and inpatient psychiatry patients with emphasis upon the most complicated and severe psychiatric problems such as resistant Bipolar Disorders, resistant Depression Disorders, resistant Psychotic Disorders and Dissociative Disorders. Is available for outpatient and inpatient consultation with physicians and house staff from throughout the medical center and region. Has patient responsibilities within the service during the time patients are present for therapy, including supervision of critically ill patients and provisions for emergency treatment when necessary. Utilizes all psychiatric and treatment modalities to include individual psychotherapy, group therapy, couples therapy, and pharmacotherapy. (60%)
2. Directs a multidisciplinary psychiatric team. Provides technical supervision to the staff, consultative services to other providers and direct care for patients requiring drug therapy (enabling maximum utilization of non-physician mental health clinician). (20%)
3. Serves as an on-call psychiatrist as designated by the Chief, Department of Mental Health. During this on-call time, is available by beeper or telephone, physically in the hospital as needed, for consultation with the Emergency Room and other wards of the hospital. (5%)
4. Maintains accurate records of initial actions, changes, and follow-up contacts for each patient. (5%)
5. Attends regularly scheduled psychiatric conferences as required. Participates in staffing and PI activities. (10%)

Requirements:

License: A current, unrestricted, and valid medical license from a U.S. State, District of Columbia, Commonwealth, Territory, or other jurisdiction is required.

Training: A candidate must possess a qualifying Doctor of Medicine (M.D.) or Doctor of Osteopathic Medicine (D.O.) degree from a medical school that is accredited by the Council on Medical Education of the American Medical Association or Bureau of Professional Education, Committee on Colleges of the American Osteopathic Association, respectively. However, candidates who are graduates of medical schools that are not located in a U.S. State, District of Columbia, Commonwealth, Territory or other jurisdiction, or a Province or Territory of Canada, may be appointed if they are certified by the Educational Commission for Foreign Medical Graduates and meet all other requirements for appointment.

Minimum 3 year commitment.
